Subject: Linnton Plywood Association site
Date: 09/12/2007 10:51 AM

Hey folks,

DEQ is in the middle of two significant actions regarding the upland LNA site. We are issuing a PPA to a prospective purchasing group, who wants to develop the site into a biofuels facility, and also issuing an NFA to LPA for the site given existing conditions and the SCD from 2005.

The Linnton Neighborhood Association has requested a public hearing on the PPA, and most likely will make a similar request for the NFA. We are in the midst of scheduling that meeting, probably for sometime in the first week of OCT.

Loren Garner is the Project Manager for this site and is finalizing both documents as will be managing the public input process. I have asked Loren to send you both copies of relevant materials should you wish to review DEQ's findings and discuss outcomes. He will do that sometime next week. In the meantime, if either of you wish to discuss the site in more detail, we can arrange a conference call.

Loren can be reached at 503 229 6900.

Thank

Keith Johnson
